FOR IMMEDIATE RELEASE

BE WORK ZONE ALERT!

PAVING PROJECT TO BEGIN ON STATE ROUTE 18

SAN BERNARDINO - The California Department of Transportation (Caltrans) District 8 has awarded a \$4.1 million project to Match Corporation that will pave three major segments of State Route 18 (SR-18) between Talmadge Road in the City of Big Bear, CA to the SR-138 junction in Crestline, CA.

The segments are: Talmadge Road in the City of Big Bear to SR-38 (at the Big Bear Dam), from just east of Lake View Point to just east of Snow Valley Resort, and from the SR-330 junction in Running Springs to the SR-138 junction in Crestline.

The project will grind the road surface, overlay with hot asphalt mix and stripe the newly completed segments. Work is scheduled to begin September 9 and continue for eighteen weeks. There will be no work over the Labor Day holiday weekend. Work hours are 9:00 a.m. to 5:00 p.m., Monday through Friday. One-way traffic control will be in effect, expect delays or use an alternate route.

Match Corporation will pave as much as possible each day as they progress through the three segments. Advisory signs will be posted stating that the project is approaching. Access to SR-18 will be restricted until the hot asphalt has cooled sufficiently. Make parking arrangements outside of the construction zone if the project is in your area.

Please be patient as Caltrans is providing the mountain residents and visitors with a brand new road surface. Thank you for your cooperation.
